5943 [VINTAGE CLASSIC]

Elegant floors. Aesthetically pleasing and high quality. Available in more than 130 attractive designs to give your surroundings a unique flair. Let yourself be inspired by the diversity of KronoOriginal® floors.

K061 [SUPER NATURAL CLASSIC]

# The look and feel of real wood and stone.

The latest KronoOriginal® collection is our widest-ever range of new decors; they comprise new trends, and new surface textures and finishes inspired by leading designers. We constantly work to develop our products, creating new unique decors with perfectly matched wood and stone textures and panels of different sizes.

# Wood is our world.

**And wood is natural. Consequently, we are at one with nature.  
In our production and in our philosophy.**

Because we want to give back to nature what it gives us in quality of life. That's why we are careful to only use wood from sustainably managed forests. FSC certified. With completely traceable origin. In our manufacturing processes too, the environment is always foremost in our mind. Our objective is to keep waste from

production as low as possible – and indeed throughout the entire product life cycle.

We achieve a high recycling rate within the manufacturing process or alternatively use waste material to generate carbon-neutral energy for our production facilities. Our water and energy consumption

is constantly monitored. This enables us to quickly identify potential savings and of course implement them in an environmentally friendly way.

This affinity for nature carries over into our products. Our floors are not only environmentally friendly, but also contribute to a healthy living environment.

K285 [X-WAY]

# Your benefits at a glance.

## **GUARANTEE**

All KronoOriginal® laminate floors are put through a series of rigorous tests in order to comply with international quality standards, which is why we grant an extensive residential warranty with every product (detailed terms of guarantee: [www.krono-original.com](http://www.krono-original.com)).

## **AUTHENTIC EMBOSSED**

The high quality Authentic Embossed structures feature elegant contrasting and a thrilling multi-gloss effect that emphasises the depth of the structure with matt and gloss elements that reflect the light differently. The synchronous pores follow the grain of the decor, meaning they flawlessly mimic the character of natural wood.

## **STAIN AND IMPRINT RESISTANT**

Whatever you might spill, whether red wine, oil or coffee, don't panic; it can be easily removed. KronoOriginal® is also abrasion resilient, robust and durable.

## **HANDSCRAPED**

A breathtakingly elegant and realistic oiled finish, with gentle irregular undulations, inspired by traditional Amish craftsmanship. The soft matt surface replicates the hardwood area of solid flooring gently polished over time due to footfall. Meanwhile the deep matt pores are highlighted with glossy accents.

## **ECO FRIENDLY**

All KronoOriginal® floors are environmentally friendly as standard made of up to 90% wood sourced from sustainably managed forests. What's more, the entire production chain – from raw materials to the finished product – has been certified and is regularly inspected by independent experts, ensuring peace of mind for you – and protection of our environment.

## **MICROSCRATCH PROTECT**

This especially durable surface will protect your floors even better against micro-scratches which can occur through heavy use. With Microscratch Protect, your flooring will be well-protected against fine scratches and everyday wear and tear.

## **A.B.C. ANTI BACTERIAL COATING**

Keeping your flooring as clean and free of bacteria as possible is naturally a major concern. A KronoOriginal® A.B.C. Anti Bacterial Coating inhibits the growth of bacteria on your flooring and provides you with the peace-of-mind that comes from a healthy home environment.

## **ANTI-SLIP CLASSES**

Safety is something we put great emphasis on. Classification in anti-slip classes (R9 and R10) has been achieved through specially developed surface structures, which address the requirements for floor coverings in the workplace and commercial areas where a high risk of slipping is present.

## **GUARANTEED ANTI-STATIC**

KronoOriginal® Anti-Static floors provide complete protection against unpleasant shocks. The Anti-Static is built-in and guaranteed for the life of the floor. In addition, these floors do not attract dust and dirt in the conventional way and are therefore incredibly easy to keep clean.

## **INSTALLATION**

The KronoOriginal® installation systems have been specifically designed to make fitting your laminate flooring as easy and hassle free as possible. The click profiles allow individual panels to be joined together quickly with minimal tools or complications.
